## What is L2Ork?

L2Ork is part of the latest interdisciplinary initiative by the Virginia Tech Music Department's Digital Interactive Sound & Intermedia Studio (DISIS). As an emerging contemporary intermedia ensemble with a uniquely open design, L2Ork thrives upon the quintessential form of collaboration found in the western classical orchestra and its cross-pollination with increasingly accessible human-computer interaction technologies for the purpose of exploring expressive power of gesture, communal interaction, discipline-agnostic environment, and the multidimensionality of arts.

## Future Work

Call for Composers to Contribute/Compose for the Ensemble

Devs/Contributors Needed

- Weeding Out Unnecessary Externals

- Separating Headless and GUI-Based Versions

- Getting Rid of the GUI-Engine Socket-Based Communication

- Migrating Pd-L2Ork to JUCE/Qt

- Documentation

Improving Git Framework and Data Tree Structure

Migrate to Ubuntu 12.04 + HP dm1 4142nr

More Satellite Laptop Orchestras

Renoise

More **Composition, Performance, Education**

## Lessons Learned

### **Last 20% is Indeed 80% of the Work**

Usability

Stability

User Experience

Transparency

Efficiency

### Project Forks

Increase Workload

Stimulate Pace of Development
